and Lottie Stewart.

The sophomores have postponed their dance from Oct. 17 to the following Fri-

mont school, and the work was finely done by the aid of both the boys and girls of the seventh and eighth grades.

The visiting teachers especially enjoyed the manual training and sewing classes, so well presided over by Miss Jessup and Mrs. Tomlinson.

Description

Description

**The department meetings of the State Teachers' association were held in the university buildings on Friday afternoon. The primary department met in the assembly room of the normal building and the grammar grades met in the large room of the museum building.

Agricultural College Notes.

R. H. Fisher of the junior class has been engaged as laboratory assistant in chemistry. Miss Geneve Egbert, the former assistant, was unable to carry the work in addition to her other du-

The senior class met last week and effected the following organization: President, E. C. Callister; secretary, Josephine Maughan; treasurer, A. C. Nebeker; historian, A. P. Merrill. The class consists of ten energetic boys and girls, who promise to make the class known this year, not only in this school, but throughout the state. They started in the right way at the last meeting by assessing each member a certain fixed sum of money in order to meet past obligations.

Miss Geneve Egbert has been engaged as assistant to the librarian. Miss Egbert will assist Mrs. Goodwin, besides carrying the full work in the

junior class of domestic science course.

President Kerr went to Salt Lake

University Notes.

Registration at the state school on the east bench has passed the 650 mark.

Registration at the state school on the state may be a very enjoyable ball to the state deaths and their iriends last Thursday night in the big assembly room of the meeting was the election of officers for the year. Hereafter the club will meet weekly, when appropriate programmes will be rendered. The club is becoming a power in the agricultural work of the college.

The members of the Engineering society of their committee appointed to accertain the advisability of publishing an masazine to represent the mining and engineering interests of the school cald also of the state. Mr. R. Elmer and proposed editor and manager of the paper, reported that if the society would guarantee them 156 subscriptions they would publish a forty-page magazine quarterly during the school year. Each of the members took a subscription and pledged themstow to obtain the needed number to school year. Each of the members to obtain the needed number to rever the publication of the paper, seventive committee was author-proceed with the work.

The executive committee was author-proceed with the work.

Professor Byron Cummings has received from Mr. J. J. Cannon of the paper, elsewed with the work.
